How can you help give back to those men & women who have given so much?

The Pendleton Cottages Project

A Non-Profit Volunteer Group dedicated to replacing all existing trailer units with pre-manufactured cottages at Camp Pendleton's San Onofre Beach facility working in conjunction with the San Diego Nice Guys

The Pendleton Cottages Project (PCP)

The PCP is a community-based effort established to assist with the replacement of 24 “cottages” that serve a recreational need for current and retired military personnel at the San Onofre Beach site located on Camp Pendleton.

The current “cottages” are actually trailers that are beyond the ability to repair. They are over 30 years old, crumbling, and without handicap accessibility.

Our informal group is working with the Nice Guys of San Diego who have generously offered to act in their not-for-profit capacity as fiscal agent for the PCP. We have secured the services of a contractor who has done previous replacements on the base (*Homes by Hedges* of Valley Center) to acquire and install pre-built homes (“cottages”) which will replace the current units.

The new cottages will be handicap-friendly, mostly two bedroom units replacing one bedroom units and they are built to last – metal roofs, composite siding and railings and stainless steel appliances.

This facility is operated by Marine Corps Community Services.

San Onofre Beach Camp Pendleton is available to all Active Duty, Reservists and Retired Military Personnel and Their Families.

Statistics show that over 48,000 military personnel have been wounded in action as of June, 2012 in Iraq and Afghanistan.

Handicapped-Friendly Facilities Have Become More Important than Ever

Camp Pendleton's San Onofre Beach facility has beach accessible campgrounds, RV spaces and cottage rentals for military personnel and their families to use for much needed R&R!

Cottages to be replaced are designated in pink.

The Problem...

The rentals currently available to our military are over 30 years old and falling apart!

There are thousands of wounded military personnel and only 2 cottage rentals are currently handicap accessible!

All but a few of these cottages are one bedroom.

The Problem...

Access and interiors don't work for the wheelchair bound

Baths and toilets not handicap friendly

- No grab bars
- No wheelchair access
- Sink heights and shower heads are inappropriate for the disabled

Spaces are cramped and do not allow for easy passage

The Solution!

Handicap-friendly two bedroom cottages

These units are manufactured homes with metal roofs and composite siding for weather resistance and longevity

The units are “pit-set” on a Fast-Track Foundation System (as shown below). This provides ground-level access for the handicap – no ramps!

Each Cottage comes with:

- Metal Roof and Composite Siding
- PVC Railings and Decking
- Living Room with Flat Screen TV
- Full Kitchen with Microwave and Stove
- Stainless Steel Refrigerator
- Full Handicap Friendly Bathroom with Transfer Shower
- One or Two Private Bedrooms
- Covered Porch
- Ground-level access for wheelchairs
- Ceiling Lights and Fans
- Window Coverings
- Basic Furnishings

Living Room Area Includes Flat Screen TV

Kitchen complete with Refrigerator, Stove, Oven and Microwave

And Plenty of Room for Marines!

Master Bedroom

Guest Bedroom

Completely Handicap Accessible Bathrooms

Nine Units Have Been Installed
